

AGRARES

Engorde

Characteristics:

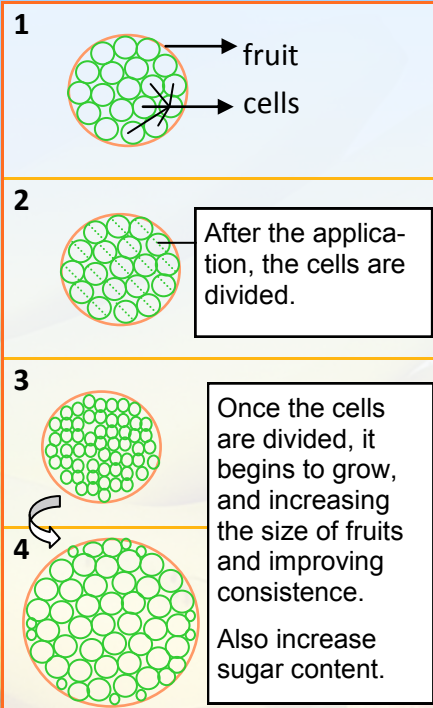

AGRARES ENGORDE it's a complex of micronutrients, from vegetal extracts, being a product with a high content of natural phytohormones (auxines, cytokinins, gibberellins and A, B1, B2, B12, C, D6...). AGRARES ENGORDE favours the cell multiplication and increases the sugar content.

As a consequence, increase number of fruits, size and consistency of them.

Applications & doses

CROP	FOLIAR DOSE	HOW TO APPLY
Fruit trees & nuts	75-100 cc/Hl	1st treatment in preflowering, 2nd at fruit setting and 3rd at fruit grow.
Citric trees	75-100 cc/Hl	The first treatment to the top of sprouting, the second in fruit setting and the third in fattening.
